Building Tomorrow

EC950F

Volvo Excavators 91.3-94.8 t / 201,227-209,020 lb 602 hp

WELCOME TO OUR WORLD

Welcome to a world of industry leading machinery. A world where imagination, hard work and technological innovation will lead the way towards developing a future which is cleaner, smarter, and more connected. A world supported by the enduring values of the Volvo Group. A world of stability, sustainability and innovation. A world which we put our customers at the heart of.

Welcome to the world of Volvo Construction Equipment – we think you're going to like it here.

Working harder, working smarter

For over 180 years Volvo has been a pioneer in the design and manufacture of machines which set the standard for efficiency, performance and uptime. Across our range of excavators, wheel loaders and haulers, our reputation for engineering excellence is unrivalled, which means whatever your operation or application, we can provide a total fleet solution to help you succeed.

Building on our proud history, the Volvo Concept Lab continues to create cutting-edge ideas and innovative concepts, to ensure we offer customers machines which work harder and smarter long into the future.

Solutions for you

Our industry leading machines are just the start of your relationship with Volvo. As your partner, we have developed an extensive range of additional solutions to help you improve uptime, boost productivity and reduce costs.

Designed for your business

Structured across nine blocks, our portfolio of products and services are designed to complement your machine's performance and boost your profitability. Simply put, we offer some of the best guarantees, warranties and technological solutions in the industry today.

There when you need us

Whether you're buying new or used, our global network of dealers and technicians offer around-the-clock support, including machine monitoring and world-class parts availability. It's the basis of everything offered by Volvo Services, so you can be confident we've got you covered right from the start.

BUILDING TOMORROW

Big, powerful and productive

Do the big jobs better, stronger and faster with the EC950F. The 90 tonne crawler excavator offers the perfect combination of power and stability to handle a higher capacity in the toughest applications.

Solid stability

The outstanding stability of the EC950F means operators can work with confidence in the most challenging environments. The well-balanced and solid machine features a wide track gauge, long track length, retractable undercarriage and an optimized counterweight which can be removed for ease of transportation.

Powered by Volvo

Rely on a superior performance from the EC950F, featuring a powerful 450kW Volvo D16 engine, which delivers high torque at low rpm. The machine utilizes advanced technology built on decades of experience to ensure a highly productive operation.

Comfortably productive

For operator convenience, all machine interfaces – including the joysticks, keypad and LCD monitor – are ergonomically positioned and designed for optimum control. The low-noise and spacious cab further enhances operator comfort and performance.

Buckets to match

Maximize productivity with Volvo buckets, perfectly matched to your machine for ultimate digging results in all working conditions. Our range includes General Purpose and Heavy-Duty buckets, and when your application requires something more unique, we offer Custom-Built Attachments to develop the right solution for you.

BIGGER MACHINE, BIGGER RESULTS

Gain more profitability in the EC950F, Volvo's largest crawler excavator. The 90 tonne excavator delivers a high bucket capacity for more tons per hour, achieving a fast and efficient on-site production.

SUPERIOR DIGGING FORCE

Even in the harshest applications, the EC950F is up to the challenge. Experience superior digging force, particularly when working with hard and heavy materials, thanks to constant high hydraulic pressure delivering power to the machine when you need it.

Peak performance

Job done. With the big and powerful EC950F, no task is too tough. Increase profitability with superior digging force, quick cycle times and outstanding fuel efficiency for a maximum return on investment.

Fast cycle times

Cut cycle times to a minimum with the fully electro-hydraulic system. The optimized hydraulics system increases pump power for a fast and smooth operation.

Complete control

For a more efficient operation, the electro-hydraulic system puts superior control in the operator's hands. Utilizing intelligent technology, the easy-to-use system controls on-demand flow and reduces internal losses in the hydraulic circuit. What's more, the EC950F comes with a boom-swing priority valve.

Outstanding fuel efficiency

Achieve outstanding fuel efficiency with Volvo's unique ECO Mode and electro-hydraulic system. ECO Mode optimizes the hydraulic system to reduce loss of flow and pressure, while the integrated work mode allows operators to choose the best work mode for the task at hand: select from I (Idle), F (Fine), G (General) and H (Heavy).

Do more

Take on a range of tasks in the hard-working EC950F. The attachment management system enhances machine versatility by storing settings for up to 20 different attachments, enabling the operator to pre-set hydraulic flow and pressure through the in-cab monitor.

Always-on

Rely on maximum uptime with the big and durable EC950F – always ready to work. The machine's heavy-duty design, reliable and wear-resistant components, and easy service access ensure you will get the job done safely and without delay.

Durable by design

Achieve non-stop production with the reliable EC950F, built with protected components to deliver maximum longevity in demanding applications. Outstanding machine protection is provided by features including a heavy-duty boom and arm, strong frame structure, heavy-duty underside plate and optional full-length track guard.

Wear-resistant digging

For a prolonged bucket lifespan, Volvo offers a range of wear parts including segments, side cutters, shrouds and teeth. When working with heavily compacted material the Pick Point tooth provides maximum penetration, and the new Volvo Tooth System enables teeth changes in minutes: simply place, push and click – it's that easy to install.

Proven reliability

Count on a solid EC950F with Volvo's high-quality components, designed to work in perfect harmony with the machine. Volvo's commitment to rigorous testing in its development process ensures the production of well-engineered components, purpose-built for the job, and proven to be reliable in the toughest applications.

Safety first

Safety is built in to the machine thanks to a large entrance, including high visibility handrails and conveniently positioned steps, as well as anti-slip plates. The optional FOG (Falling Object Guard) and FOPS (Falling Object Protective Structure) provide further peace-of-mind when working in tough applications. For the ultimate in visibility, Volvo Smart View provides a 360° birds-eye-view around the machine, displayed on the in-cab monitor.

EASY SERVICE ACCESS

Maximize uptime with quick and safe servicing. Essential maintenance points are easily accessed via the wide-opening and conveniently located compartment doors using central and surrounding walkways.

EASY MACHINE MONITORING

Maximize machine uptime and reduce repair costs with ActiveCare Direct. Utilizing CareTrack data, the intelligent service provides round the clock machine monitoring and tailored customer reports, helping you to keep track of your fleet and take preventive maintenance actions.

Keeping costs down

Engineering machines which deliver outstanding results is just the start of how we can support your operation. As your partner we are here to help with every aspect of your Volvo machinery. Our portfolio of services is designed to complement your machine's performance and boost your profitability.

Volvo dealer network

Volvo has the right solution for you. By listening to your requirements, we can reduce your total cost of ownership and increase your revenue. With our extensive infrastructure of technicians, workshops and dealers, Volvo has a comprehensive network to fully support you using local knowledge and global experience.

Machine diagnosis

Maximize machine uptime and reduce repair costs with ActiveCare Direct. The intelligent service provides around the clock machine monitoring, as well as customer reports, to help take predictive and preventative maintenance actions.

Customer Support Agreements

The range of Customer Support Agreements offer preventive maintenance, total repairs and a number of uptime services. Volvo uses the latest technology to monitor machine operation and status, giving you advice to increase your profitability. By having a Customer Support Agreement you are in control of your service costs.

24-hours parts delivery guarantee

Maintain productivity and machine uptime with our range of readily available part, all backed by Volvo warranty – with 24-hour parts delivery guarantee. Only by using Genuine Volvo Parts, can you protect your investment, extend machine life and guarantee long-lasting performance.

Go big

THE OPERATOR'S CHOICE

- Spacious and quiet cab, ergonomic controls
- Boom-swing priority function
- Dig Assist, powered by Volvo Co-Pilot (Option)
- Straight travel pedal
- Pilot control pattern change

ROBUST PROTECTION

- Heavy-duty boom and arm
- Additional underside plate
- Floating pins on the bucket connection

VERSATILITY

- General Purpose and Heavy-Duty buckets
- Range of wear parts: teeth, side cutters, segments and wear shrouds
- Custom-Built Attachments for specific applications
- Attachment Management System: pre-set hydraulic flow and pressure

EFFICIENTLY PRODUCTIVE

- Powerful 450kW Volvo D16 engine: high torque at low RPM
- Fully electro-hydraulic system
- Constant high hydraulic pressure for superior digging force
- ECO mode, Work modes

KEEP ON DIGGING

- Easy service access, wide-opening compartment doors
- Volvo Tooth System: quick, easy and safe installation
- ActiveCare Direct: round-the-clock machine monitoring
- 24-hours parts delivery guarantee

SAFETY FIRST

- High-visibility handrails
- Anti-slip plates
- Central and surrounding walkways
- Volvo Smart View

SOLID STABILITY

- Wide track gauge
- Long track length
- Retractable tracks frame
- Optimized counterweight, hydraulically removable

Volvo EC950F in detail

Engine

The engine is a low emission, turbocharged air-to-air cooling, 4-stroke diesel engine with water cooling, direct injection controlled electronically, that meets EPA Tier 4 Final requirements. The engine has been developed especially for excavator use, providing good fuel efficiency, low sound level and a long service life.

Air Filter : 3-stage

Automatic Idling System : Reduces the engine speed to idle / when levers and pedals are not activated / resulting in less fuel consumption and low cab noise level.

Engine	Volvo	D16J
Max power at	r/min (r/s)	1,650 (27.5)
Net, ISO 9249/SAE J1349	kW (hp)	449 (602)
Gross, ISO 14396/SAE J1995	kW (hp)	450 (603)
Max torque	Nm (ft lbf)	2,700 (1,991)
at engine speed	r/min (r/s)	1,400 (23.3)
No. of cylinders		6
Displacement	l (in ³)	16.1 (982)
Bore	mm (in)	144 (5.67)
Stroke	mm (in)	165 (6.5)

Electrical system

Contronics, provides advanced monitoring of machine function and important diagnostic information.
High capacity and well protected electrical system.
Centrally located fuse and relay box using clearly arranged printed circuit board mounted, for easy access, behind the cab.
A master switch is standard.

Voltage	V	24
Batteries	V	2 x 12
Battery capacity	Ah	210
Alternator	V/A	28/80

Undercarriage

The undercarriage has a robust X-shaped frame. Greased and sealed track chains are standard.

Track shoes		51 x 2
Link pitch	mm (in)	260.4 (10.25)
Shoe width, double grouser	mm (in)	650/750/900 (26/30/36)
Bottom rollers		9 x 2
Top rollers		3 x 2

Cab

The operator's cab has easy access via a wide door opening.
The cab is supported on hydraulic dampening mounts to reduce shock and vibration levels.
These along with a sound absorbing lining provide low noise levels.
The cab has excellent all-round visibility.
The front windshield can easily slide up into the ceiling, and the lower front glass can be removed and stored in the door.
Integrated air conditioning and heating system: The pressurized and filtered cab air is supplied by automatically controlled fan. The air is distributed via 13 vents.
Ergonomic operator's seat: The adjustable seat and joystick consoles move independently to accommodate the operator. The seat has nine different adjustments and a seat belt to meet any operator's comfort and safety.

Swing system

The superstructure is slewed by two units of hydraulic piston motors with 2 stage planetary gear reduction box. Automatic swing holding brake and anti-rebound valve are equipped.

Max. slew speed	r/min	6.9
Max. slew torque	kNm (ft lbf)	343 (252,983)

Travel System

Drive device: 2 step Hydraulic motor with 2 stage planetary reduction gears on each track.
Framework: All-welded robust torsion box frame.
Track Gauge: Retractable.

Max. drawbar pull	kN (lbf)	565 (127,008)
Max. travel speed (low)	km/h (mi/h)	2.8 (1.7)
Max. travel speed (high)	km/h (mi/h)	4.4 (2.7)
Gradeability	°	33

Sound Level

Sound pressure level in cab according to ISO 6396

L _{pA}	dB	74
-----------------	----	----

External sound level according to ISO 6395 and EU Noise Directive 2000/14/EC

L _{WA}	dB	109
-----------------	----	-----

Hydraulic system

The hydraulic system, also known as the "Automatic Sensing Work Mode", is designed for high-productivity, high-digging capacity, high-maneuvering precision and good fuel economy. The summation system, boom priority, arm priority, swing priority along with boom and arm regeneration provides optimum performance.

The following important functions are included in the system:

Summation system: Combines the flow of both hydraulic pumps to ensure quick cycle times and high productivity

Boom priority: Gives priority to the boom operation, for fast raising when loading or performing deep excavation.

Arm priority: Gives priority to the arm operation, for faster cycle times in leveling and for increased bucket filling when digging.

Swing priority: Gives priority to swing functions for faster

Regeneration system: Prevents cavitation and provides flow to other movements curing simultaneous operations for maximum productivity

Holding valves: Boom and arm holding valves prevent the digging equipment from creeping

Main pump. Type: 3 x variable displacement axial piston pumps

Maximum flow	l/min (gal/min)	2 x 515; 1 x 147 (2 x 136; 1 x 38.8)
--------------	-----------------	--------------------------------------

Pilot pump. Type: Gear pump

Maximum flow	l/min (gal/min)	1 x 37.8 (1 x 10)
--------------	-----------------	-------------------

Relief value setting pressure

Implement	MPa (psi)	34.3 (4,980)
-----------	-----------	--------------

Travel circuit	MPa (psi)	34.3 (4,980)

Please consult with your Volvo dealer for the proper match of buckets and attachments to suit the application.

(In case of using bigger bucket than regional standard MRS, consultation with R&D is highly recommended)

The recommendations are given as a guide only, based on typical operation conditions.

Bucket capacity based on ISO 7451, heaped material with a 1:1 angle of repose.

Maximum material density

kg/m ³	lb/yd ³	
1,200~1,300	2,000~2,200	Coal, Caliche, Shale
1,400~1,600	2,300~2,700	Wet earth and clay, Limestone, Sandstone
1,700~1,800	2,800~3,100	Granite, Wet sand, Well blasted rock
1,900~	> 3,200~	Wet mud, Iron ore

X : Not recommended

LIFTING CAPACITY EC950F

Lifting capacity at the arm end without bucket. For lifting capacity including bucket, simply subtract actual weight of the direct fit bucket or the bucket with quick coupler from the following values.

		Lifting hook related to ground level	3.0 m / 10 ft		4.5 m / 15 ft		6.0 m / 20 ft		7.5 m / 25 ft		9.0 m / 30 ft		10.5 m / 35 ft		Max. reach		
			Along UC	Across UC	Along UC	Across UC	Along UC	Across UC	Along UC	Across UC	Along UC	Across UC	Along UC	Across UC	Along UC	Across UC	Max.

Notes: 1. Machine in "Fine Mode-F" (Power Boost) for lifting capacities.
 2. The above loads are in compliance with SAE J1097 and ISO 10567 Hydraulic Excavator Lifting Capacity Standards.
 3. Rated loads do not exceed 87% of hydraulic lifting capacity or 75% of tipping load.
 4. Rated loads marked with an asterisk (*) are limited by hydraulic capacity rather than tipping load.

Equipment

STANDARD EQUIPMENT

Engine

Turbocharged, 4 stroke diesel engine with water cooling, direct injection and charged air cooler

Air filter with indicator

Air intake heater

Cyclone pre-cleaner

Electric engine shut-off

Fuel filter water separator with heater

Alternator, 80 A

Electric / Electronic control system

Contronics

Advanced mode control system

Self-diagnostic system

Machine status indication

Engine speed sensing power control

Emergency engine stop switch

Automatic idling system (switchable between on and off)

Short cut switch

Safety stop/start function

Adjustable 8inch LCD color monitor

Master electrical disconnect switch

Engine restart prevention circuit

High-capacity halogen lights:

Cab-mounted 2

Frame-mounted 2

Boom-mounted 4

Batteries, 2 x 12 V / 210 Ah

Extra lights on cabin and boom

Travel alarm

Swing alarm

Frame

Access way with handrail

Hydraulically removable counterweight (CWT body and linkage) 16,100 kg, 35,500 lb

Tool storage area

Side walk-way

Under cover (heavy duty 4.5 mm, 0.2")

Punched metal anti-slip plates

Undercarriage

Mechanically retractable tracks frame

Hydraulic track adjusters

Greased and sealed track links

Track Guard

Belly cover (10mm, 0.4")

Hydraulic system

Automatic sensing hydraulic system

Summation system

Priority function, each actuator: Boom, Arm and Swing

Boom-Swing priority

ECO mode fuel saving technology

Boom and arm hydraulic regeneration valves

Swing anti-rebound valves

Holding valves on boom and arm

Multi-stage filtering system

Cylinder cushioning

Cylinder contamination seals

STANDARD EQUIPMENT

Auxiliary hydraulic valve

Automatic two-speed travel motors

Hydraulic oil, ISO VG 46

Pilot control pattern changer

Straight travel pedal

Boom float function without HRV

Work tool management system (up to 20 programmable memories)

Hammer & shear, 1 and 2 pump flow

Hammer & shear: variable flow and pressure pre-setting

Cab and interior

Silicon oil and rubber mounts with spring

Adjustable operator seat with heater and joystick control console

Control joysticks with 4 switches

Heater & air-conditioner, automatic

Flexible antenna

Radio with MP3 player, USB and Bluetooth

Hydraulic safety lock lever

Cab, all-weather sound suppressed, includes:

Cup holders

Door locks

Tinted glass

Floor mat

Horn

Large storage area

Pull-up type front window

Removable lower windshield

Seat belt

Safety glass

Sun screens, front, roof, rear

Windshield wiper with intermittent feature

Master key

Top hatch opening

Volvo Smart View

Track shoes

Track shoes, 900 mm, 36" with double grouser

Digging equipment

Boom: 8.4 m, 27'7"

Arm: 3.7 m, 12'2"

Service

Tool kit, daily maintenance

OPTIONAL EQUIPMENT

Engine

- Block heater: 120 V, 240 V
- Dual stage oil bath pre-cleaner
- Diesel coolant heater, 10 Kw
- Fuel filler pump, 100 l/min, 26.4 gpm, with automatic shut-off
- Reversible cooling fan

Electric

- Extra lights on cabin, CWT and boom
- Anti-theft code

Undercarriage

- Full track guard

Hydraulic system

- Hose rupture valve: boom, arm
- Boom float function with HRV
- Hydraulic piping:
 - Bucket Conflux
 - Additional return filter
 - Slope & rotator
 - Quick coupler piping
- Hydraulic oil, ISO VG 32, 68
- Hydraulic oil, biodegradable 46
- Hydraulic oil, longlife oil 32, 46, 68
- Hydraulic hose for Artic

Cab and interior

- One-piece fixed front windshield
- Fabric seat without heater
- Fabric seat with heater and air suspension
- Control joysticks with 3 switch & 1 propotional

OPTIONAL EQUIPMENT

- Front rain shield
- Falling object guard (FOG)
- Frame-mounted
- Cab-mounted
- Cab-mounted falling object protective structure (FOPS)
- Smoker kit (ashtray and lighter)
- Safety net for front window
- Protection system in boom cylinder, bucket cylinder and swing bearing
- Lower wiper with intermittent control
- Air pressure supply in cabin
- Rear view camera
- Side view camera
- Dig Assist
- On board weighing system
- Specific key

Track shoes

- 650/750mm, (26"/30") track shoes with double grousers

Digging equipment

- Boom: 7.25 m, 23'9"
- Arm: 2.95 m, 9'8"

Service

- Tool kit, full scale
- Special tool for retractable frame
- Automatic lubrication system
- Auto fire suppression system

SELECTION OF VOLVO OPTIONAL EQUIPMENT

X1/X3 quick fit auxiliary lines

Reversible cooling fan

Additional protection options

Fire Suppression System

Coolant heater

Dig Assist, powered by Volvo Co-Pilot

Not all products are available in all markets. Under our policy of continuous improvement, we reserve the right to change specifications and design without prior notice. The illustrations do not necessarily show the standard version of the machine.
